

Community College of Philadelphia
MLT/Phlebotomy Programs
Pregnancy Release Form

- I. Pregnancy Release Form: To be completed by both female and male students annually.

A pregnant student in the MLT or Phlebotomy programs is required to make her condition known to the Curriculum Coordinator of the MLT program and her clinical instructor and to submit appropriate documentation from her attending physician or health care provider. As a result of learning activities, students may be exposed to risk factors such as but not limited to communicable diseases, strenuous activity, toxic substances and radiation. Neither Community College of Philadelphia nor its affiliating clinical agencies assume responsibility to any harm that might occur to fetus or a pregnant student.

My signature below indicates that I have read and I understand the Pregnancy Release Form.

Student Signature: _____

Date: _____ Student ID # _____

This release must be signed by both female and male students.
