

MLT/Phlebotomy Student Uniform Policy

1. The highest standards of personal hygiene and professional appearance must be met at all times. All students must bathe daily, use deodorant and refrain from using cologne or perfume.
2. The required uniform must be worn on days that you are attending a clinical rotation. They will be sold by the College Bookstore and are Navy Blue scrubs* with the tag "CCP program name" to be worn on the left side of the scrub top. A white/black/navy blue long sleeve shirt is also available for any student that has tattoos on their arms, desires to be covered or tends to be cold. Students should wear their college ID with the scrubs unless the clinical provides a hospital student ID to the student.
 - *No "Jogger" type pants (narrow at the ankle) are allowed. Clinical assistant students can wear their program's scrubs for phlebotomy clinicals. Students can buy scrubs that are similar to the book store's scrubs elsewhere but will need to buy a CCP Program tag.*
3. Clean white/black/brown/blue (no bright colors) leather sneakers (no canvas or mesh allowed) or duty shoes must be worn with the uniform. Clog type shoes (no wholes on top) with an open back can be worn.
4. Some sites will have fluid-resistant lab coats that may be worn over the uniform. No patterned scrub jackets may be worn.
5. Long hair must be tied back or worn up. No large scarves or ribbons.
6. Tattoos must not be visible when wearing your uniform. Tattoos on arms must be covered with the white long sleeve shirt or a white turtle neck shirt for tattoos on the neck or during cold months.
7. Jewelry - must be worn in moderation. No hoop or dangling earrings.
8. Cosmetics - use in moderation. Fingernails must be kept short and nail overlays, decorations or fake nails (including gel) are NOT allowed. They are a source of fungal and bacterial infections to patients.
9. Student lab - a full-length fluid-resistant lab coat must be worn at all times in the student lab. Gloves and safety glasses will be provided for on on-campus lab. Gloves will be provided at your clinical site. Tank tops, sleeveless shirts, sandals, open toed shoes or short shorts cannot be worn in the student lab.
